

Dr. APJ Abdul Kalam
Former President of India

24 September 2012

MESSAGE

On the first anniversary of the launch of the Changing Diabetes in Children Program India, I congratulate the CDIC team for their excellent work of reaching out to children with Type 1 diabetes from underprivileged families. Reaching 3000 children and providing them with medication and quality care as well as educating them on how to take care of their diabetes is a laudable task. I am happy to note that the health of these children have improved substantially after coming into the fold of the CDIC program. I look forward to see many more children benefiting from this program in coming days. I congratulate all those who are part of this initiative and wish all the very best.

APJ Abdul Kalam
